# CompTIA Authorized Academy Program

## IT careers start with the right education

The goal of the CompTIA Authorized Academy Partner Program is to provide valuable tools and resources to assist schools in training, certifying, and upgrading the skills of their IT students.

Research has shown that certified employees have superior communication skills and are better able to understand new or complex technologies. CompTIA's Academy program is designed to assist schools to promote certification and enhance student career opportunities.

## Who can join

- Secondary Schools (Including affiliated career or technical centers)
- Colleges and Universities (Degree granting 2- and 4-year schools, including community colleges and technical colleges)
- Not-for-Profits
- Certain government administered vocational training programs

## CompTIA Authorized Academy Program supports IT education

Academy partners have access to materials to help promote their technology courses and programs.

## To join

Please visit [www.comptia.org/academy](http://www.comptia.org/academy). If you have questions please contact your CompTIA representative listed on the left.

## About CompTIA

CompTIA is the leading association representing the IT industry. Its goal is to provide a unified voice, global advocacy, and leadership, and to advance industry growth through standards, professional competence, education, and business solutions. CompTIA also serves the IT industry as the world's largest developer of vendor-neutral IT certification exams. CompTIA certifications validate technical skills in the areas of PC repair and support, networking, security, and cloud technology.
